

Cartographer Questions Simplified

1. Where was your civilization located on the world globe?
 - a.) Identify location on world map.
 - i.) Include latitude and longitude of borders.

2. What was the environment/landscape like?
 - a.) How did this affect the people of your civilization?
 - b.) Represent physically on your map.

3. Where are/were the locations of historical places/people?
 - a.) Three (3) great cities, buildings, statues, sacred temples, etc....
 - b.) Major trade routes

4. Were they a civilization at peace or war?
Who did they battle with? When? Why? What were results?

5. What was the climate of your civilization?
 - a.) How did this affect the way people lived.

After the research is complete you will create a tour of your civilization on Google Earth highlighting the following:

- City Locations (Where were 2-3 of their major cities located. What city is there now, if any?)
- Trade Routes (Who they traded with and what they traded with each.)
- Climate and it's affect on lifestyles.
- Physical Features (What was the landscape like and how did this affect trade and war.)
- War and Peace (Who did they battle with and how did landscape affect this?)
